two.sh

```
#!/bin/bash  
echo "Current process name is $0 and it's pID is $$"
```

Output

A terminal window titled 'insane_banda@ENIGMA: ~/Desktop/OS/Assignment-2' with search, menu, and window control icons. The prompt is '>'. The user enters 'bash two.sh'. The output is 'Current process name is two.sh and it's pID is 21600'. Below the output is a status bar with a gear icon, a file icon, the path '~/Desktop/OS/Assignment-2', a green checkmark, and the time 'at 09:00:41 AM' with a refresh icon. A white cursor is at the bottom left.

```
insane_banda@ENIGMA: ~/Desktop/OS/Assignment-2  
> bash two.sh  
Current process name is two.sh and it's pID is 21600  
at 09:00:41 AM
```
